

Valley Grinding

Top Slitters

Guaranteed Fit ... First Time ... Everytime

Manufactured in-house to our precise specifications. Valley Grinding Top Slitters provide a perfect fit, extremely dependable performance and a variety of design options including:

- Custom made OEM sizes to match existing machine specifications
- To insure material quality, Valley Grinding's hardening processes consist of vacuum heat treated, through hardened, triple tempered and cryogenically treated.
- Custom holder shapes including custom angles (single or double bevel) or wide rims
- Back angles to improve cut quality
- Choice of materials: 52-100, D-2, Powdered Metal 10V
- Flat design facilitates less web deflection and reduces dust.
- Polished secondary angles to reduce roll flair in plastic films and minimize dusting and angel hair fibers
- Available with or without keyway locking device
- Use of American Iron & Steel Institute certified steel guarantees quality.
- Superfinished cutting edges improve cut quality, reduce blade wear, extend run times
- Many styles in stock to meet customer quick lead times
- Individually packaged with protective coating for increased operator handling safety

By controlling Top Slitter production in-house, Valley Grinding provides premium quality, prompt delivery and exceptional customer service and support. For the finest product quality, industry expertise and "cutting edge" technology, you can rely on the experts at Valley Grinding.
