

Training and Consulting

At Valley Grinding, we are dedicated to providing our customers with a total package of customer service, including complete training and consulting services. By combining our state-of-the-art technology with our years of experience in the industry, our trained professionals are able to provide customers in the converting and manufacturing industries with the insight and knowledge needed for optimum performance.

TRAINING SERVICES

On-site training by experienced Valley Grinding personnel or instruction at Valley Grinding's corporate headquarters cover:

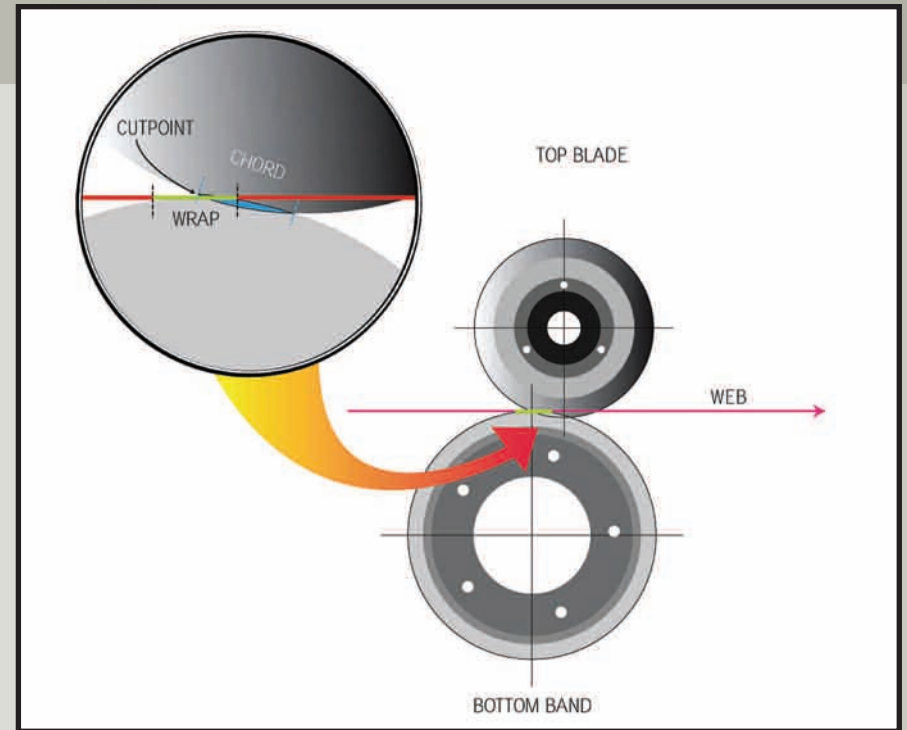

- Fundamentals of the slitting process
- Proper slitter care and handling
- How to recognize dull or damaged cutting edges
- How to properly set up the slitter section
- Instruction on how to use gauges and tools for consistent set up quality

We are flexible about conducting training sessions for your staff at a time which complements your schedule.

CONSULTATION SERVICES

- On-site inspection of present equipment by trained Valley Grinding technicians to evaluate operating conditions, operating procedures and maintenance practices
- Specific recommendations to improve performance
- On-going consultation available

Use our years of knowledge and expertise in the converting and manufacturing industry to make sure your slitting and cutting operations are as efficient and profitable as possible. For the finest quality and expertise to help you with your cutting needs, call Valley Grinding. We guarantee superb customer service, timely delivery and exceptional products.
