

Valley Grinding

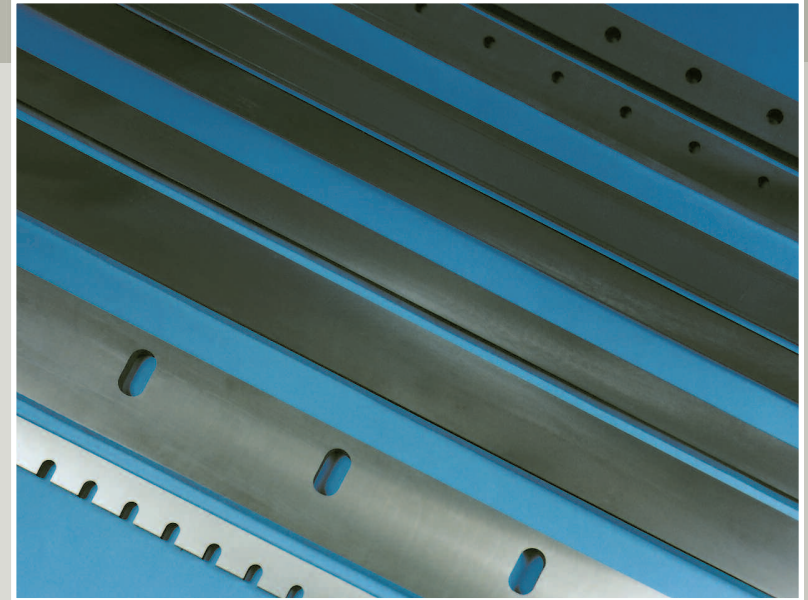

Sheeter Knives

Guaranteed Quality ... Custom Cutting Angles ... Huge In-Stock Inventory Increases Customer Productivity

At Valley Grinding, not only do we manufacture sheeter knives of guaranteed quality, we also custom tailor knife edges to meet specific cutting requirements and maintain a large inventory to assure customers their knives will be available as they are needed.

- Made with American Iron & Steel Institute certified steel, Valley Grinding sheeter knives feature solid blades vs. inlayed cutting materials to allow maximum blade usage and eliminate possible injury from inlay separation.
- Valley Grinding manufactures guaranteed quality knives for all of today's major high speed sheeter machines including Bielomatic, Jagenberg, ECH Will, Pasaban and many others.
- To meet various paper sheeting requirements, Valley Grinding can tailor knife angles and materials to provide the cleanest cuts and longest run-time.
- Providing the proper number of precision ground shims with sheeter knives helps maintain parallelism within the knife box and reduces the chance of knife crashes due to set-up errors.
- Valley Grinding can help manage inventories by assigning minimum sizes and measuring blades before sharpening them. We can also automatically replace blades when they go undersized.
- For maximum flexibility, Valley Grinding can inventory sheeter knives without angles for quick completion with customer angles when needed.
- Knives can be shipped in aluminum containers to protect sharp edge during storage and improve safety when they are being handled and installed.

By manufacturing the finest blade quality and by providing custom knife edges as needed, Valley Grinding helps converters improve productivity and profitability. For the finest product quality, industry expertise and "cutting edge" technology, you can rely on the experts at Valley Grinding.
